

# TABLE OF CONTENTS

Introduction . . . . .	xiii
Facts & Strategies for Passing the New York Algebra 2 and Trigonometry Exam . . . . .	xiv
Diagnostic Tests . . . . .	xxxvi

## Chapter 1 The Real Number System

	Common Core State Standards	New York Standards
<b>1.1</b> Properties of Real Numbers . . . . .	2	Foundational standards coverage
<b>1.2</b> Integers as Exponents . . . . .	4	A2.A.9 Rewrite expressions with exponents
<b>1.3</b> Absolute Value . . . . .	6	A2.A.1 Solve absolute value equations
<b>1.4</b> Order of Operations . . . . .	8	Foundational standards coverage
<b>1.5</b> Finding Square Roots of Non-Perfect Squares . . . . .	10	Foundational standards coverage
<b>Chapter 1 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . .</b>	<b>12</b>	

## Chapter 2 Exponents and Radicals

	Common Core State Standards	New York Standards
<b>2.1</b> Radical Notation . . . . .	16	A2.N.1 Evaluate expressions with exponents
N.RN.1		A2.N.2 Perform operations on irrational numbers
N.RN.2		A2.A.10 Rewrite fractional exponents as radicals
		A2.A.13 Simplify radical expressions
<b>2.2</b> Simplify Radical Expressions . . . . .	18	A2.N.2 Perform operations on irrational numbers
A.REI.2		A2.N.4 Perform operations on irrational expressions
N.RN.2		A2.A.13 Simplify radical expressions
		A2.A.14 Add, subtract, multiply, divide radicals
<b>2.3</b> Operations with Radical Expressions . . . . .	20	A2.N.5 Rationalize radical denominators
		A2.N.15 Rationalize denominators
		A2.A.16 Use operations with rational expressions

<b>2.4</b>	Rational Exponents . . . . . 24 N.RN.1 A.SSE.3.c	A2.A.8 Simplify expressions with exponents A2.A.9 Rewrite expressions with exponents A2.A.11 Rewrite radicals as fractional exponents
<b>2.5</b>	Radical Equations with Rational Exponents . . . . . 28 A.REI.2	A2.A.22 Solve radical equations
<b>Chapter 2 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 30</b>		

## Chapter 3 Rational Expressions

Common Core State Standards	New York Standards
<b>3.1</b> Simplify, Multiply, and Divide Rational Expressions . . . . . 34 A.APR.1	A2.N.3 Perform operations with polynomials
<b>3.2</b> Addition and Subtraction with Rational Expressions . . . . . 38 A.APR.7	A2.N.3 Perform operations with polynomials
<b>3.3</b> Complex Rational Expressions . . . . . 42	A2.N.3 Perform operations with polynomials A2.A.17 Simplify complex fractional expressions
<b>3.4</b> Solve Rational Equalities and Inequalities . . . . . 46	A2.N.3 Perform operations with polynomials A2.A.23 Solve rational equations/inequalities
<b>Chapter 3 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 50</b>	

## Chapter 4 Polynomial Operations

Common Core State Standards	New York Standards
<b>4.1</b> Addition and Subtraction of Polynomials . . . . . 54 A.APR.1	A2.N.3 Perform operations with polynomials
<b>4.2</b> Multiplication and Division of Polynomials . . . . . 60	A2.N.3 Perform operations with polynomials
<b>4.3</b> Factoring Polynomials . . . . . 66 A.SSE.2 A.SSE.3.a	A2.A.7 Perform operations with polynomials
<b>Chapter 4 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 70</b>	

## Chapter 5 Linear Equations and Inequalities

	Common Core State Standards	New York Standards
<b>5.1</b> Linear Equations . . . . .	74	Foundational standards coverage
<b>5.2</b> Linear Inequalities . . . . .	78	Foundational standards coverage
<b>5.3</b> Absolute Value Equations and Inequalities . . . . .	82	A2.A.1 Solve absolute value
<b>5.4</b> Graphing Linear Equations . . . . .	86	Foundational standards coverage
<b>5.5</b> Graphing Linear Inequalities . . . . .	92	Foundational standards coverage
<b>Chapter 5 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . .</b>	<b>96</b>	

## Chapter 6 Quadratic Functions and Equations

	Common Core State Standards	New York Standards
<b>6.1</b> Factoring and the Zero-Product Property . . . . .	100	A2.A.26 Solve higher-degree polynomial equations
A.SSE.3.a		
<b>6.2</b> Completing the Square . . . . .	104	A2.A.24 Complete the square
A.REI.4.a		A2.A.26 Solve higher-degree polynomial equations
F.IF.8.a		
<b>6.3</b> The Quadratic Formula . . . . .	108	A2.A.2 Use the discriminant
A.REI.4.b		A2.A.25 Use the quadratic formula
<b>6.4</b> Sum and Product of the Roots . . . . .	112	A2.A.20 Find sum and product of quadratic roots
		A2.A.21 Determine quadratic equations
<b>Chapter 6 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . .</b>	<b>114</b>	

## Chapter 7 Applications of Quadratic Functions

	Common Core State Standards	New York Standards
<b>7.1</b> Graphing Quadratic Equations . . . . .	118	A2.A.2 Use the discriminant
<b>7.2</b> Circles . . . . .	122	A2.A.47 Determine equation of a circle
G.GPE.1		A2.A.48 Write equation of circle given a point
		A2.A.49 Write equation of circle from its graph

**v**

<b>7.3</b>	Solving Quadratic-Linear Systems and Quadratic Inequalities . . . . . 126	A2.A.3	Solve systems of equations
	A.REI.7	A2.A.4	Solve quadratic inequalities
<b>7.4</b>	Applications of Quadratic Functions . . . . . 132	A2.A.25	Use the quadratic formula
	A.REI.4.b		
<b>Chapter 7 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 136</b>			

## Chapter 8 Relations, Functions, and Graphs

Common Core State Standards		New York Standards	
<b>8.1</b>	Relations and Functions . . . . . 140	A2.A.37	Define a relation and function
	F.IF.1	A2.A.38	Determine when a relation is a function
	F.IF.2	A2.A.39	Determine domain and range
		A2.A.40	Write functions in functional notation
<b>8.2</b>	Operations with Functions . . . . . 146	A2.A.41	Use functional notation
	F.IF.2		
<b>8.3</b>	One-to-One and Onto Functions . . . . . 152	A2.A.43	Determine if function is one-to-one or onto
<b>8.4</b>	Composition of Functions . . . . . 154	A2.A.42	Find the composition of functions
	F.BF.1.c		
	F.BF.4.b		
<b>8.5</b>	Inverse Relations and Functions . . . . . 156	A2.A.44	Define the inverse of a function
	F.BF.4.a	A2.A.45	Determine the inverse of a function
	F.BF.4.b		
<b>8.6</b>	Transformations . . . . . 160	A2.A.46	Perform transformations of functions
	F.BF.3		
<b>Chapter 8 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 164</b>			

## Chapter 9 Complex Numbers

Common Core State Standards		New York Standards	
<b>9.1</b>	The Meaning of $i$ ..... 168 N.CN.1	A2.N.6	Write imaginary numbers
		A2.N.7	Simplify powers of $i$
<b>9.2</b>	Operations with Complex Numbers ..... 172 N.CN.2	A2.N.9	Perform operations on complex numbers
<b>9.3</b>	Complex Numbers and Conjugates ..... 176 N.CN.2 N.CN.3	A2.N.8	Determine conjugates of complex numbers
		A2.N.9	Perform operations on complex numbers
<b>Chapter 9 Preparing for the New York Algebra 2 and Trigonometry Exam</b> ..... 180			

## Chapter 10 Polynomial Functions and Variations

Common Core State Standards		New York Standards	
<b>10.1</b>	Polynomial Functions ..... 184 N.CN.9	A2.A.26	Solve higher-degree polynomial equations
		A2.A.50	Solve polynomials using graph
		A2.A.51	Determine domain and range from graph
<b>10.2</b>	Zeros, Solutions, and Intercepts ..... 190 N.CN.9	A2.A.26	Solve higher-degree polynomial equations
<b>10.3</b>	Direct and Inverse Variation ..... 196	A2.A.5	Use direct and inverse variation
<b>Chapter 10 Preparing for the New York Algebra 2 and Trigonometry Exam</b> ..... 198			

## Chapter 11 Exponential and Logarithmic Functions

Common Core State Standards		New York Standards	
<b>11.1</b>	Exponential and Logarithmic Functions ..... 202 A.CED.1	A2.A.6	Solve exponential function applications
		A2.A.54	Graph logarithmic functions

<b>11.2</b>	Exponential Functions of Base $e$ and Properties of Logarithms . . . . .	208	A2.A.12	Evaluate expressions with base $e$
			A2.A.53	Graph exponential functions
			A2.A.54	Graph logarithmic functions
<b>11.3</b>	Solving Exponential and Logarithmic Equations . . . . .	212	A2.A.27	Solve exponential equations
			A2.A.28	Solve logarithmic equations
<b>11.4</b>	Applications of Exponential and Logarithmic Functions.	216	A2.A.12	Evaluate expressions with base $e$
			A2.A.27	Solve exponential equations
			A2.A.53	Graph exponential functions
			A2.A.54	Graph logarithmic functions
<b>Chapter 11 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . .</b>			<b>220</b>	

## Chapter 12 Circular Functions

Common Core State Standards		New York Standards	
<b>12.1</b>	Radian Measure . . . . .	224	F.TF.1
			A2.A.61 Determine length of an arc of a circle
			A2.M.1 Define radian measure
			A2.M.2 Convert between radians and degrees
<b>12.2</b>	Right Triangle Trigonometry . . . . .	228	F.TF.3
			A2.A.55 Express trigonometric functions
			A2.A.56 Know values of sine, cosine, and tangent
			A2.A.59 Use co-function relationships
<b>12.3</b>	The Unit Circle . . . . .	234	F.TF.3
			A2.A.57 Use reference angle for standard angles
			A2.A.58 Apply co-function relationships
			A2.A.60 Sketch unit circle
<b>12.4</b>	Graphing Trigonometric Functions . . . . .	238	
			A2.A.69 Determine amplitude, period, frequency
			A2.A.70 Recognize one cycle of a trig function
			A2.A.71 Graph $\sec(x)$ , $\csc(x)$ , $\tan(x)$ , $\cot(x)$
			A2.A.72 Write trig functions given a graph

<p><b>12.5</b> Graphing Inverse Trigonometric Functions . . . . . 244 F.TF.6</p>	<p>A2.A.63 Restrict domain of trig functions A2.A.64 Use inverse functions to measure angles A2.A.65 Sketch graph of inverse trig functions</p>
<p><b>Chapter 12 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 250</b></p>	

## Chapter 13 Trigonometric Equations and Identities

Common Core State Standards	New York Standards
<p><b>13.1</b> Trigonometric Identities . . . . . 254 F.TF.8</p>	<p>A2.A.67 Justify the Pythagorean identities A2.A.76 Apply angle sum/difference formulas A2.A.77 Apply double-/half-angle formulas</p>
<p><b>13.2</b> Trigonometric Equations . . . . . 260</p>	<p>A2.A.68 Solve trigonometric equations</p>
<p><b>13.3</b> Law of Sines and Cosines . . . . . 266 G.SRT.10 G.SRT.11</p>	<p>A2.A.73 Use Law of Sines or Law of Cosines A2.A.74 Determine area of triangle/parallelogram</p>
<p><b>13.4</b> The Ambiguous Case (SSA). . . . . 272</p>	<p>A2.A.75 Determine solution from SSA situation</p>
<p><b>Chapter 13 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 274</b></p>	

## Chapter 14 Sequences and Series

Common Core State Standards	New York Standards
<p><b>14.1</b> Arithmetic and Geometric Sequences . . . . . 278 F.BF.2</p>	<p>A2.A.29 Find formula for <math>n</math>th term of sequence A2.A.30 Determine common difference A2.A.31 Determine common ratio A2.A.32 Determine specified term of a sequence A2.A.33 Specify terms of a sequence</p>
<p><b>14.2</b> Arithmetic and Geometric Series and Their Sums . . . . . 282</p>	<p>A2.N.10 Know and apply sigma notation A2.A.34 Represent sum of a series A2.A.35 Determine sum of first <math>n</math> terms of series</p>

<b>14.3</b>	The Binomial Theorem . . . . . 288 A.APR.5	A2.A.36 Apply binomial theorem
<b>Chapter 14 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 292</b>		

## Chapter 15 Statistics

Common Core State Standards	New York Standards
<b>15.1</b> Gathering Data . . . . . 296 S.IC.4	A2.S.1 Understand difference among studies A2.S.2 Determine factors which affect outcome
<b>15.2</b> Measures of Central Tendency . . . . . 300 S.ID.2	A2.S.3 Calculate measures of central tendency A2.S.4 Calculate measures of dispersion
<b>15.3</b> Measures of Dispersion . . . . . 304	A2.S.4 Calculate measures of dispersion
<b>15.4</b> Normal Distribution . . . . . 310 S.ID.4	A2.S.5 Know and apply normal distribution
<b>15.5</b> Regression Models . . . . . 316 S.ID.6 S.ID.6.c	A2.S.6 Determine appropriate regression model A2.S.7 Determine and use regression functions A2.S.8 Use correlation coefficient
<b>Chapter 15 Preparing for the New York Algebra 2 and Trigonometry Exam . . . . . 322</b>	

## Chapter 16 Probability

Common Core State Standards	New York Standards
<b>16.1</b> Probabilities . . . . . 326 S.MD.3 S.MD.4	A2.S.13 Calculate theoretical probabilities A2.S.14 Calculate empirical probabilities
<b>16.2</b> Applying Probability . . . . . 330 S.MD.3 S.MD.4	A2.S.13 Calculate theoretical probabilities A2.S.14 Calculate empirical probabilities

<p><b>16.3</b> Combinations and Permutations . . . . . 336</p> <p>S.CP.9</p>	<p>A2.S.9 Differentiate permutations/ combinations</p> <p>A2.S.10 Calculate the number of permutations</p> <p>A2.S.11 Calculate the number of combinations</p> <p>A2.S.12 Use Fundamental Principle of Counting</p>
<p><b>16.4</b> Binomial Probability Formula . . . . . 342</p>	<p>A2.S.15 Apply the binomial probability formula</p>
<p><b>16.5</b> Normal Approximation of Binomial Probabilities . . . . . 344</p>	<p>A2.S.16 Use the normal distribution</p>
