

Title I & MathXL® for School

Use this report to document *MathXL for School's* alignment with Section 1114–1115 of ESSA's Title I

Key Criteria for Title I, Part A Funding	<i>MathXL® for School</i> Alignment
<p>Provide opportunities for all students to meet the State's proficient and advanced levels of student academic achievement.</p> 	<p><i>MathXL for School</i> is a powerful online practice and remediation program that enables teachers to meet their 6–12th Grade students' needs across the spectrum, including intervention and remediation for struggling students, extra practice for on-level learners, and challenging assignments for advanced students.</p>
<p>Use effective methods and instructional strategies that are based on scientific research.</p> 	<p>Students get real-time assistance from learning aids within <i>MathXL for School</i> and receive immediate feedback for their work. Algorithmically generated exercises and interactive learning aids create a dynamic learning experience for every student. The Gradebook feature details the areas of greatest difficulty for the class, enabling teachers to focus on the content areas where further instruction is needed.</p>
<p>Strengthen the core academic program in the school.</p> 	<p>Tied directly to more than 300 Pearson mathematics and statistics texts, teachers can use <i>MathXL for School</i> to easily create, edit, and assign online practice and remediation that is correlated to their math and statistics textbooks. Not using a Pearson textbook? <i>MathXL for School</i> offers universal courses that can be used with any textbook or as a standalone resource.</p>
<p>Include strategies for meeting the educational needs of historically underserved populations.</p> 	<p>Struggling students benefit from working at their own pace. Each student receives personalized study plans that highlight the student's strengths and areas needing improvement based on quiz and test results. Each plan links directly to interactive, tutorial exercises of topics that students have not yet mastered. <i>MathXL for School's</i> interactive study aids such as step-by-step examples, video clips, and animations make learning more engaging.</p>

***MathXL® for School* aligns with ESSA's requirements for Demonstrates a Rationale. View alignment [here](#).**
