

Math Guide: Let's have fun with Math!

4. When you are done

Record your great work in your math log.

3. When you have an answer

Reread the problem

Ask yourself: *Can others see how I got my answer?*

Go through each step again.

Work backwards through your solution.

Find other ways to solve the problem.

Share your solutions with someone:

"The problem is _____, and I solved it by _____."

2. While you work

Use objects in your home to solve the problem.

Think aloud: *"The problem is asking me to _____. I know _____, so maybe I can try _____."*

IF YOU GET STUCK:

Think of a similar problem you solved before.

Find things in the problem makes sense.

What else can you try?

Discuss the problem someone.

Draw it out!

1. Before you begin

Find a quiet spot where you can think and work.

Gather all your materials and put on your math brain!
