

enVision® New York
2020

Engage Students with Hands-On Mathematics!

Unlock the Mathematical Practices and build conceptual understanding through multiple modalities to meet the needs of all learners.

The *enVision New York Classroom Manipulatives Package* is designed to provide meaningful opportunities for students to explore, make sense of, and communicate mathematical ideas.

- Engage learners in problem solving, sorting by categories, creating patterns, analyzing shapes, measuring, investigating numbers and operations, and representing real-life situations with hands-on tools
- The **Quick-and-Easy Center Kit** organizes all centers materials and provides the right manipulatives for differentiation activities
- **Specific manipulatives** are identified within each lesson to help simplify planning and preparation
