SPECIFIC EVALUATION CRITERIA

2017-2023

Group V – World Language – Modern Languages Level I Grades 7-12

The acquisition of communication skills is the primary focus of Modern Foreign Languages Level I objectives. Beginning students will develop initial proficiency by repetition, imitation and memorization. They will rely on active, concrete learning and will understand short, simple texts. They will use gestures, facial expressions, visual and/or verbal responses to facilitate successful task completion. Level I students will understand and be best understood by someone who is accustomed to working with a beginning language learner.

Effective use of the five standards of foreign language learning (**Communication, Culture, Connections, Comparisons** and **Communities**) and their objectives will guide beginning students toward language proficiency. It is important to remember that knowledge and skills acquired in Level I are maintained and expanded in subsequent levels.

Communication and **Culture** are cornerstones for language learning. **Connections** add knowledge from other disciplines to the process of language learning. **Comparisons** give insight into the nature of language and culture. **Communities** broaden horizons for language students as they develop an awareness of the universal nature of language. The goal is for all students to learn how, when, and why to say what to whom.

For student mastery of content standards, the instructional materials will provide students with the opportunity to
