## Grade K: Self and Others

In kindergarten, students study “Self and Others”. The course is organized into five units of study—Individual Development and Cultural Identity; Civic Ideals and Practices; Geography, Humans, and the Environment; Time, Continuity, and Change; and Economic Systems. These units represent five of the unifying themes of social studies and may be presented in any order. Each unit helps students study themselves in the context of their immediate surroundings. Students will learn about similarities and differences between children, families and communities and about holidays, symbols and traditions that unite us as Americans. Students learn about respect for others, and rights and responsibilities of individuals.

## Individual Development and Cultural Identity

**K.1 Children’s sense of self is shaped by experiences that are unique to them and their families, and by common experiences shared by a community or nation.**
